

2016 TPC “Little Chippers” Program

The **Little Chippers Program** is designed for new junior golfers between 4-7 years old. The weekly classes introduce them to the basic elements of the golf swing using **SNAG** junior golf equipment and is fun for both parent and junior.

Parents are join their kids during these programs to facilitate the learning process. The goal of this program is to have fun while learning golf concepts and create a spark so the kids will grow to love the game and play the rest of their lives.
