## **Vinyasa Yoga**

This type of practice involves synchronizing the breath with a continuous flow of postures. Vinyasa yoga promotes upper and lower body strength, balance and flexibility. Through this dynamic exercise, students progress physically while also benefitting from the intense mental and spiritual effects the practice.

## **Above the Barre**

Combine elements of barre, dance, and yoga.

Exercises are high intensity and low impact, choreographed to fun and motivating music, and emphasize toning the legs and strengthening the core.

## **coreStrength**

This class blends core exercises and weight training to chisel your muscles, kick your core, and rev up your metabolism.

You will get a comprehensive workout as you build lean muscles, sculpting your entire body.

## **barreMotion**

A dynamic total body workout utilizing the ActivMotion Bar & Barre technology. Training muscle with increased core activation while defining and sculpting with smaller isolated movement of barre work.
